Medicinbæger, klart, 25 ml

We confirm that the abovementioned article fulfill the requirements on materials and articles used for food contact as described in the European Regulation 10/2011/EC, including subsequent amendments up to Commission Regulation (EU) 2020/1245.

Monomers and additives used for the manufacturing of the abovementioned materials are all listed in Annex I of Regulation 10/2011/EC, including subsequent amendments up to Commission Regulation (EU) 2020/1245.

The articles contain no substances restricted by specific migration limits:

The articles contain the following substances which are subject to a restriction in food:

- Cas no. 1592-23-0: Calcium Stearate (E470)
- Cas no. 31566-31-1: Glycerol Monostearate (E471)
- Cas no. 14807-9601: Talc

Migration tests have been conducted according to the specifications set out in Regulation 10/2011/EC, including subsequent amendments up to Commission Regulation (EU) 2020/1245 in test report as specified in the table.

The products have been tested in food simulant A, B and D2 according to OM2. They can therefore be applied for any longterm storage at room temperature or below, including heating up to 70 °C for up to 2 hours or up to 100 °C for up to 15 minutes.

The materials do not represent a functional barrier as defined in EC-regulation 10/2011/EC and 2020/1245.

The products do not apply any danger to health or environment according to Framework Regulation 1935/2004/EC. The products are manufactured according to Regulation 2023/2006/EC on good manufacturing practice (GMP). The materials comply with current EU-legislation on plastic materials and articles intended for food contact as described in EC Regulation 10/2011/EC and 2020/1245 as amended.
